

SNO	PYTHON NEW IDEA 2020-2021
01	Abnormal Electricity Consumption
02	Age Estimation
03	Alzheimers Diseases Detection
04	Anomaly Detection
05	Apple Fruit Detection
06	Aspect Sentiment
07	Authentication by Encrypted Negative Password
08	Automatic Keyword Extraction for Text Summarization A Survey
09	Chronic Kidney Disease
10	Denoise Dynamic PET Images
11	Detect Social Bots on Twitter
12	Diabetes in Electronic Health Records
13	Diabetes Prediction
14	Diabetes Using Binary Classifiers
15	Disease Cluster Detection and Functional Characterization
16	E-Commerce
17	Electricity Price Forecasting
18	Facial Expression
19	Glucose Prediction
20	Head Count
21	Heart Rate Detection

22	Human Activity
23	Human Activity Recognition
24	Imbalanced Classification
25	Intrusion Detection Systems
26	Lane Detection
27	License Plate Recognition
28	Lung Nodule Malignancy Classification
29	Malaria Parasite Detection
30	Mango Classification
31	Mental Disorder
32	Multitask Learning
33	News Text Summarization
34	Object Detection
35	Online Comment
36	Online Product Recommendation
37	Osteoporosis
38	Parkinson Disease identification
39	Personality Recongization
40	Plant Species Classification
41	Rain fall Prediction
42	Resampling Predicting Students Performance
43	Sentiment Classification
44	Smart Waste Management Systems
45	SmPBIe Detection
46	Software Bug Reports
47	Soil Classification

48	Speech to Text
49	Stock Market Prediction
50	Teaching Recommendation
51	Text Summarization
52	Traffic sign recognition
53	Traffic Signal Detection
54	TV Show Rating
55	Twitter Spam Detection
56	Twitter Summarization
57	Twitter Trending Topic
58	User Behavior Prediction
59	Video Saliency
60	Word Extraction
